

CYBER-ShARE

Center of Excellence

Sharing Resources to Advance Research and Education through Cyberinfrastructure

Students...

Are You Interested in Science and Technology Fields?

Be part of a team of scientists and educators at the University of Texas at El Paso who use and develop cyberinfrastructure to share information with other researchers around the world.

Get Involved

- Attend workshops to learn about cyberinfrastructure and its use in advancing science and engineering.
- Summer research opportunities.
- Funded research opportunities for graduate and Ph.D. students.

Subproject Areas of Study

CM

Computational Math

CS

Computer Science

GEO

Geoscience

ES

Environmental Science
